

Tuesday 23rd Feb

Can you highlight all the different adjectives (describing words) that you can find about the aliens in these passages from the text?

Some are bald and some are hairy,
Some are roundy, some are squary;
Some look friendly but beware –
The aliens are coming!

They've boldly been where we've not
been;
They're blue and purple, sickly green.
(At home this one's a beauty queen!)

The aliens are coming!

Some are tall and some are squat,
Some are cool and some are hot,
Some are nice but most are not!
The aliens are coming!
